

WHAT ARE STUDENT ASSOCIATIONS?

The goal for the associations is to:

- Supervise the interests of its members
- Act as a link and as a means of networking between the students
- Support the members' studies, hobbies, professional and social aspects
- Act as a link between IT students and possible future employers, e.g. company excursions
- Offer free-time activities, organize events and entertainment

As a member of a student association you can benefit from e.g. discounts to different pubs, stores etc. , and have the right to buy that association's overalls, join their events etc.

Dumppi ry (Dumppi.fi)

Dumppi ry is a student association of students majoring in Information System Science, Cyber Security, Cognitive Science or Security and Strategic Analysis at the University of Jyväskylä.

Dumppi office can be found in Mattilanniemi campus in Agora-building. (Ag D124.1)
