

Fetching keys from the Ruusupuisto building

Fetch the keys of guest apartments from the key locker located in the entrance vestibule of the Hannikaisenkatu side door in the Ruusupuisto building. Please enter the vestibule from outside. Open the side door using the same code you got for opening the key locker. The code is in the booking confirmation message (text message or email). For staff members serving as contact persons, the access right is programmed to the access card.
