

Apply for FITech's autumn courses!

Want to develop your expertise or acquire basic skills on a completely new field? Study selected courses from all Finnish universities of technology and upgrade your knowledge for free.

| Course | Teaching method | University | Application deadline |
|---|-----------------|-------------------------|----------------------|
| Wireless systems | Blended | Aalto University | 18.8.2025 |
| Object oriented programming with C++ | Online | Aalto University | 20.8.2025 |
| Telecom forum | Online | Aalto University | 26.8.2025 |
| Mobile communication systems | Blended | Aalto University | 6.10.2025 |
| Core 5G and beyond | Online | University of Helsinki | Continuously ongoing |
| Introduction to the Internet of Things | Online | University of Helsinki | Continuously ongoing |
| Wireless communications I | Online | University of Oulu | 6.8.2025 |
| Simulations and tools for telecommunications 1 ECTS | Online | University of Oulu | 31.8.2025 |
| System on chip technologies for wireless signal processing systems | Online | University of Oulu | 22.9.2025 |
| Simulations and tools for telecommunications | Blended, online | University of Oulu | 13.10.2025 |
| Radio channels | Blended | University of Oulu | 13.10.2025 |
| Communications networks I | Online | University of Oulu | 13.10.2025 |
| Internet of things | Blended | University of Oulu | 13.10.2025 |
| Measurement systems | Online | University of Oulu | 11.11.2025 |
| Electrical measurement principles / Sähkömittaustekniikan perusteet | Online | University of Oulu | 11.11.2025 |
| Electronic measurement techniques / Elektroninen mittaustekniikka | Online | University of Oulu | 11.11.2025 |
| 5G – A friendly introduction | Online | LUT University | 11.11.2025 |
| Internet of Things – Introduction | Online | LUT University | 11.11.2025 |
| SOA and cloud computing | Blended | University of Jyväskylä | 26.8.2025 |
| Cyber security psychology | Online | University of Jyväskylä | 7.10.2025 |
| Langattoman tietoliikenteen perusteet / Basic course on wireless communications | Online | Tampere University | 11.8.2025 |
| Communication theory | Online | Tampere University | 23.8.2025 |
| Network analysis and dimensioning | Online | Tampere University | 23.8.2025 |
| Computer networking I | Online | Tampere University | 23.8.2025 |
| P2P systems and blockchain technologies | Blended, online | Tampere University | 23.8.2025 |
| Networking laboratory I | Blended, online | Tampere University | 6.10.2025 |
| Tietoliikennetekniikan perusteet | Online | Tampere University | 6.10.2025 |
| Security engineering | Contact | University of Turku | 13.10.2025 |
| Introduction to cybersecurity | Online | University of Turku | 31.10.2025 |
| Introduction to digital communication and 5G | Online | University of Turku | 31.10.2025 |
| Protocol processing and security | Online | University of Turku | 31.10.2025 |
| GNSS Technologies | Online | University of Vaasa | 19.8.2025 |
| Architecture of complex systems | Online | University of Vaasa | 20.8.2025 |
| Applied machine learning | Online | University of Vaasa | 22.8.2025 |
| Projektitoiminta | Online | University of Vaasa | 22.8.2025 |
| Modern wireless communications and applications | Online | University of Vaasa | 7.10.2025 |
| Machine learning for computer vision | Blended | University of Vaasa | 8.10.2025 |
| Perspectives on international markets | Contact, online | Åbo Akademi University | 18.8.2025 |
| Cross-cultural marketing and management | Online | Åbo Akademi University | 14.10.2025 |

FITech Network University offers **free university courses** for degree students and adult learners in Finland. Whether you are already working, planning a career change or still in the middle of your studies, FITech has something for everyone! You need a Finnish personal identity code to apply for the studies and Finnish e-identification (e.g. online banking access codes) to confirm your study place. More information at fitech.io.
